Preparing for a Fight with Mr. Powderly.

Important Business Before the Knights' General Assembly.

Who Will Be Secretary-Treasurer, Hayes or Turner?

INTECIAL TO THE EVENING WORLD. Indianarous, Ind., Nov. 18.—Among the delegates to the General Assembly of the Knights of Labor the drift of conversation is upon the action of the General Assembly to expelling Thomas Barry, and this morning it is the general opinion that, as he has now commenced his open attack upon tre present administration, immediate steps will be taken to form a new order, with Barry as

He is preparing for a fight with or without a following, and his bitterness towards Powderly and his iriends indicates that there will be no peace among organized workingmen until Barry, who is the way. He promises to make some sensational disclosures to-day, but the delegates seem to be oferry well diagnated with his method of attack.

The trouble in District Assembly No. 49 will probably be sprung upon the General Assembly this morning. The matter will some up in the

probably be sprung upon the General Assembly this morning. The matter will come up in the way of a protest, filed by the excluded delegates, against the action of the assembly in admitting the delegates of the Quinn faction.

If is more than likely that the consideration of the protest will occupy all morning if not the best portion of the day.

When this case has been disposed of the Committee on Law will be prepared to submit its report on several of the recommendations given them to consider.

The most important of these will be that which proposed to give to the General Master Workman of the Order the power to select the members of the General Executive Board, who are to be saccused with him, subject to the approval of the General Assembly. A hot discussion on this issue anticipated, and the result will be a safe test of the genuine strength of Mr. Powderly's followers. It is thought that the Convention will place this poles; in the Fands of the Executive Bead, at it would be number and unfair to ask the General Master Workman to undergo the painful and injurious experience of the past two years, if the selegates should associate with him an unfriendly man.

This Committee will also recommend that the salary of the General Master Workman be reduced to \$5.000, and that, for economical purposes, the effects of General Secretary and General Treasurer be committeed.

tion of general officers will take place on Wednesday.

For the office of General Secretary-Treasurer there are three candidates in the field—Turner, Layton and John W. Haves. The less mestioned seems to be the favorite among the delegates.

The others have their followers, but Hayes is an experienced and trustworthy officer, while it is a well-known fact that Turner was and is the secret friend of Barry and Bailey and that he has been; the hidden cause of much of the trouble between the general officers.

general officers.

Layion will draw out of the contest at the last moment and leave the open field to the other two candidates, and while the fight will be a close one, it is generally believed that John W. Hayes will be the victor.

The friends of Mr. Fowderly are now satisfied that their leader will accept another term if the General Assembly assists him in the work of purification.

Phonestonal developments are expected during the present week.

of mitchers and an increase of the filtohers' hours of work from nine to ten a day.

A committee of the employees headed by Peter Layland, Masser Workman of Local Assembly & 60, called on President Thompson sink forenoon and pressured the grievances of the hitchers.

Mr. Thompson replied gruing that he would make no concressions and if they wanted to the up the road they could go shead and do so.

The Committee went away, and when an EVENING WORLD reporter met them one of them said there would be no strike, that the matter had been settled.

As a matter of fact, he is the first Chinese ghost which has appeared in this country, and his presence here is believed to portend some simiser and terrible event for the children of the Flowery Kingdom.

Thus far he has confined his wanderings exclusively to Peil street, and his last visitation, which cocurred last fistures at midnight, threw the entire neighborhood into such a nuturo that it seemed as if fediam had broken loose.

The front and rear temements of 11 Peil street are occupied principally by Chinamen, many of whom lies with white girls. It was to two of the latter that the ghost appeared in the open confraged between the two buildings.

As soon as he saw the girls they say his face lengthened out to a point, like that of a crocodile, and when he opened his big jaws he sent out a red fame several feet in length. At the same instant he seemed to vanish in a bluish vapor, and the sir had a strong med of sulphut.

For a moment the girls were paralyzed with terror, but they quickly recovered and their shricks brought out a number of the lodgers in the adjoining houses, and the story of the frightful apparition spread like wildfire through the neighborhood.

In comparing notes with the two frightened girls it was learned that there had been several other ghostly apparitions in the same locality within the past few days.

Mrs. Elizi Ah Quire, whose husband is a Chinese cook now off on a voyage to the Pacing Ocean, declared that she saw the ghost just week

gashed from head to foot with an axe, and so cut to pieces that it would not hold together when it was put into a coffin. Her remains were found about one hundred feet away from her home, whither it had been dragged.

On the night of May I, 1883, Linxie Mhelley, another colored domestic, was butchered in the same horrible manner. She was drayged from her bed into the open air. Both women had been killed on bright moonlight nights. The people of Austin were shooked, but attrib-uted the murders to freaks of jealousy of disap-pointed lovers. But more was to follow.

One day in the next June another colored ser-vant, Irene atress, was found cut to pieces. This crims was different from the two preceding, in

crime was different from the two preceding, in that the body was not removed from the woman's room. There were evidences to show that the villair or maniac who did the deed had become frigit-ened and field hastily.

The colored population of Austin became frantic. They said the murders were the work of witches. Rebecen Maney and her twelve-year-old daughter Many, both colored servants of Mr. V. O. Weed, were the next to suffer.

As a valued on the muraing of Aug. 30 Mr. Weed heard grouns in a cabin near his house. He went out and found Rebecca bleeding from an axe wound in ber head and in a stable hair a mile away he found the dead body of Mary, with the head sabit open and evidences of an assault having been committed. been committed.

Every citizen now joined in a cry for a searching investigation. Bloodhounds were put on the acent and two negroes were thus trailed and captured, but were able to prove their innocenos.

She was of the same class, and her death struck terror to the hearts of every one, which was increased still more when, on Christm's night, 1885, two white women were dragged from their beds and killed with the deadly axe, one of them having been taken from the side of her husband, who was hit in the head.

It was a bright moonlight night, and there was no clue left. No outery was raised, and the earne cunning we shown in this midnight assassination as in all the oners.

Bloodhounds were again brought into service, and every available means were quickly utilized to find the murderer, but with no satisfactory result.

THE MANIAC THEORY.

Every theory active and imaginative minds could device was well ventilated and discussed. The one most generally believed and the most probable was that a manize was at large—a manize with the cunning of a devil and the crueity of a hundred of them.

Men were arrested and charged with the crime and they were always able to clear themselves.

NEW JERSEY'S MYSTERIES.

The Rahway Case and Others Where No Murderer Was Caught.

[SPECIAL TO THE EVENING WORLD.] Towerov, N. J., Nov. 19 .- It would take many columns of THE PUENING WORLD to give anything like a history of even the unsolved murder cases of

recent years in New Jersey. Pherbe Paulite, a pretty young girl, while strolling down the Orange Mountains outside Newark one day was struck down by an unknown

The whole mountain-side stirred up to seek the slayer of a life so pure and innocent. But all of no Paoebe Paullin's murder is still enshrouded in

mystery that there is no longer a hope of unveiling. TI'S RABWAT CRINE. Then there is the Rahway murder of more recent date. A woman found by the roadside brutally killed, but no cree to even establish her identity. Again the bloodhounds of the law were put upon the scent, and, as in the Phobe Pauliin case, many traces were followed up and several arrests were made, but the murderer is still at large.

A case that did not schleve so much notoriety, but is involved 'g almost equal mystery, is the murder of Teminie Mergan, the Bordentown track-walker, nearly four years ago.

Late one afteragon, in the Fall of 1884, his dead body, with warm blood still pouring from a bullet wound in his neck, was discovered along the railroad two miles from the town. There was the evidence of a struggle on the earth near by, but no one had seen the crime done nor seen the murderer take flight; and the erime remains a mystery to-day. A TRACK-WALKER MURDEBER.

UNFORTUNATE BLLEN QUINN. If the marder of Elisa Quina had taken place in Trenton this year, instead of last, there would have been more attention given to it in the newspapers, because of its similarity to the White-chapel murders that now startle the whole civilized world.
